(54) Title: <u>REGULATORY SEQUENCES FOR ROOT SPECIFIC OR ROOT ABUNDANT GENE EXPRESSION IN PLANTS</u> ✓			
(57) Abstract			
<p>The present invention relates to regulatory elements for tissue specific, in particular root specific, expression of genes of interest in plants. The invention also relates to methods to obtain transgenic plants which show root specific expression of genes of interest and to methods for isolating root specific genes and/or root specific regulatory elements.</p>
